NOTICE OF ELECTRIC RATE INCREASE

Effective October 1, 2025

Effective October 1, 2025, Columbus Light and Water will implement a 2% electric rate increase for all standard customer classes. In addition, the monthly customer charge will increase by \$2.50 for residential along with increases to GSA customers.

These adjustments, approved by the Columbus Light and Water Board of Commissioners and the Tennessee Valley Authority (TVA), will help ensure we can continue meeting the rising costs of providing reliable electric service to our community.

We remain committed to delivering safe, dependable, and affordable service to all our customers.
